**WWW:** www.poranfolio.space/

## PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience specializing in React.js and Next.js. Skilled in building clean, scalable, and high-performing UIs for SaaS, POS, and E-commerce platforms. Proven leadership as a frontend team lead, driving performance optimization and clean code practices.

## WORK HISTORY

### Expert Squad - Frontend Team Lead & Part-time MERN Stack Developer

Dhaka

01/2023 - Current

- Leading frontend development team for SaaS, POS, and E-commerce projects
- Responsible for project architecture, performance tuning, and cross-team collaboration
- Ensure design consistency and code reusability with component libraries

## BD COMMERCE – FULL E-COMMERCE SOLUTION

Developed a complete e-commerce solution including both the customer-facing storefront and admin management system.

**Client Platform:** Responsive and high-performance storefront with features like quick order, product quick view, multi-currency support, and multiple payment methods.

**Admin Dashboard:** POS-integrated dashboard with real-time order tracking, customer management, and full shop configuration—designed to streamline operations.

**Tech Stack** (Frontend): React, Next.js, Redux, React Quill, Tailwind CSS
